Objective: Find Specific information by answering questions.

Write this activity on your copybook

The Seaview Hotel

The Seaview Hotel is a large building in the centre of town. From the outside, it looks impressive, but the atmosphere inside is warm and friendly. The owners have recently modernized the hotel, but i was pleased that they'd managed to keep some of the traditional character of this lovely old building.

The hotel has 120 rooms, all of which have bathrooms. The room I stayed in was very clean and bright. There are also three luxury suites for guests who can afford a little more comfort. Other facilities include a gym and a sauna. The gym is well equipped and free for guests to use. Unfortunately, the sauna was closed when I visited.

The leve lof service was very high. A problema I had with the lights in my room was son solved. In fact, all the staff seemed very happy to deal with any request-even when I asked for hot chocolate at four in the morning!

In conclusión, the seaview is a lovely hotel which is perfect for anyone who wants to visit the town.

Answer in English:

1. What's the hotel's name?
